What about "salt"?

Min Raj shared of his ministry and the challenges. Discuss what impacted you from his message.

Min Raj mentioned several qualities of light. There is a physical and a spiritual element to each. Discuss times where you have experienced any of these in your spiritual life:

- Light exposes darkness
- Light expels darkness
- Light is a guide

Consider and discuss where you have opportunities in your life to be light to others – to bring the light of Jesus Christ.

Discuss what it means to bring the light of Jesus and what this may look like.

Min Raj highlighted salt as something which changes things. In what ways can your relationship with Jesus change the world around you.

Have you seen this happening.

Discuss why the images of both salt and light are important.

In what ways are they different?

In what ways will being salt and light change you, and how may you need to be changed to be open to this?
